MIX

BOSS'S CABIN
Premium Office Furniture

MIX

Employees have different or slightly different working rhythms. Allowing them to echo with their own rhythms is the essence of people-orientation in offices. Mix focuses on these differences and provides diverse options to build flexible and enjoyable working for everyone.

Just-right Design for Everyone

Concise steel-stand version and cabinet-stand version office tables are designed for different using habits.

The steel-stand version table is concise and neat, providing more knee space and imposes no sense of constraint even in limited spaces.

Mobility Cabinet

You can marry it to a mobility cabinet and enjoy sufficient storage and flexibility during work.

MULTICOLOR

As available in morandi green, meteor grey, matte white colors, the modesty panel are optional if you feel to have more privacy and comfort during work.

Mixing enthusiasm with happiness here, working has never being this smooth.

Make Storage More Organized

The cabinet includes three drawers for organized storage for office tools, documents, and private belongings.

The cabinet-stand table has larger storage space and a more integrated look.

Aluminum Frame Screen

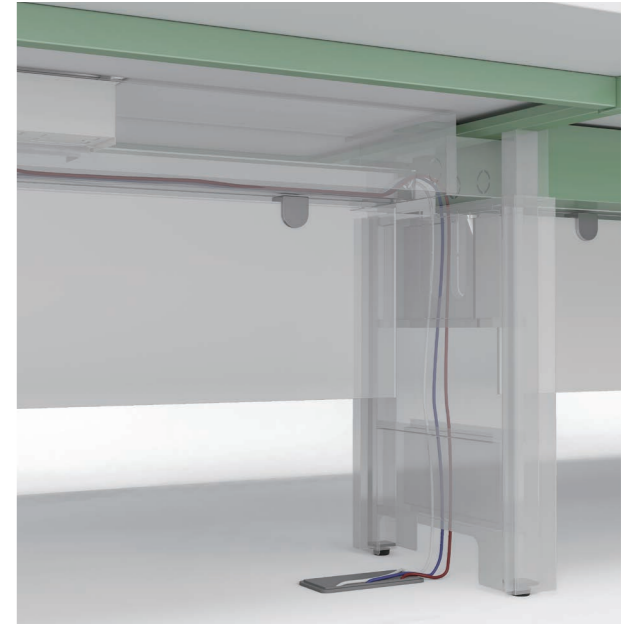

The desktop is one-piece made for people to share. Acoustic fabric decreases ambient noise, glass-splice screens prevent droplet and keep a good sight, magnetic screen for easy display of notes, and screens with hang slots create vertical storage and make better use of the tabletop.

POWER-USING

Flip wiring opening is design for convenient and neat power-using experience.

The free-standing wiring box and the underdesk wiring trunk centralize and conceal wires and cables to maintain a neat and clear look. Strong and weak electricity are separated to ensure safety.

Simple and organized working environment makes your working rhythm flow. When each drop of water flows smoothly, the corporate sea will be rapidly enlarged and operate in a more efficient way.
